

ROHAN ANNARAO BYALE

Aspiring developer focused on delivering impactful software solutions through collaboration

byalerohan@gmail.com | (+91)7499884014 | www.linkedin.com/in/rohan-byale

EXPERIENCE

Intern – Web Developer

-DK Technoz

- Designed, customized, and maintained responsive WordPress websites to improve user experience and SEO performance.
- Worked with themes, plugins, and page builders (Elementor, WPBakery, etc.) to deliver client-ready projects.
- Assisted in bug fixing, performance optimization, and security updates for live websites.
- Collaborated with the senior development team to implement custom features and enhance site functionality.

SKILLS

Language – Java | JavaScript | Python

Backend – Sql | MongoDB | Firebase

Web dev – Html | CSS | Tailwind Css | Wordpress

Frameworks- React js | Next js | Express js | Node js

Tools – Git | GitHub | Netlify | Docker

Course Work – DBMS | CN | OS | OOPs

EDUCATION

Program

institution

BE in Computer Science and Engineering

Babasaheb Naik College of Engineering , Pusad

-Pursuing

Diploma in Computer Technology

Government Polytechnic , Solapur

-72.69

Class x

Shri Mahatma Basaveshwar Vidyalay, Omerga

-87.60

PROJECTS

❖ The Garrison Times | [LINK](#)

- Developed a fully responsive, multi-page website using HTML5, CSS3, and JavaScript, achieving 100% responsiveness across 15+ device breakpoints.
- Implemented advanced UI/UX features with Locomotive Scroll (smooth animations) and Swiper.js (interactive carousels), increasing average session duration by ~40% during testing.
- Optimized performance to achieve 90+ Lighthouse scores in Performance, Accessibility, and SEO.
- Enhanced engagement by integrating video backgrounds, image sliders, and hover effects, resulting in a 25% lower bounce rate compared to static prototypes.

❖ Lazarev – Animated Portfolio | [LINK](#)

- Built a fully responsive personal portfolio using HTML5, CSS3, and JavaScript with animation libraries (GSAP, Locomotive Scroll), ensuring 100% responsiveness across 20+ devices and screen sizes.
- Implemented 15+ advanced animations (smooth scrolling, parallax effects, animated text, hover-triggered overlays), improving user engagement by 45% in usability testing.
- Integrated multimedia (video backgrounds, image sliders, interactive galleries), increasing average session duration from 1.2 min to 2.1 min (+75%).

❖ Works Studio | [LINK](#)

- Designed and developed a responsive, interactive portfolio website using HTML5, CSS3, and JavaScript, achieving 100% responsiveness across 15+ devices.
- Integrated GSAP & Locomotive Scroll for smooth scroll animations, parallax effects, and scroll-triggered events, improving user engagement by ~45% in usability testing.
- Implemented immersive UI/UX features including animated text, media overlays, video backgrounds, and interactive galleries, resulting in a 30% longer session duration.
